

CORPORATE GOVERNANCE STATEMENT

Finnlines Plc applies the guidelines and provisions of the Finnish Limited Liability Companies Act, the NASDAQ OMX Helsinki Ltd, and its own Articles of Association. Finnlines also applies the Finnish Corporate Governance Code entered into force on 1 October 2010 for listed companies. The Code is publicly available on www.cgfinland.fi. This Corporate Governance Statement has been approved by Finnlines' Board and shall be read together with the report of Finnlines' Board of Directors. The Board of Directors' report can be found on page 22.

DEVIATION FROM CORPORATE GOVERNANCE CODE RECOMMENDATION

The composition of the Board of Directors deviates from Recommendation 9 of the Corporate Governance Code which, inter alia, recommends that Board of Directors shall include both genders. The objective of the Company is to ensure that the Board is competent and holds a sufficient know-ledge of the specifics of the industry, business and markets of the Company. In global shipping there are very few women in a leading position, and therefore the Board of Directors has not been able to find a suitable candidate. Hence at the Annual General Meeting held on 19 April 2011 there was no eligible female candidate for a board member. However, the Company's long-term objective is to fulfil the recommendations of the Corporate Governance Code also in this respect.

TASKS AND RESPONSIBILITIES OF GOVERNING BODIES

Management of the Finnlines Group is the responsibility of the Board of Directors elected by the General Meeting as well as of the President and CEO. Their duties are for the most part defined by the Finnish Limited Liability Companies Act. Day-to-day operational responsibility lies with the members of the Extended Management Board supported by relevant staff and service functions.

GENERAL MEETING OF SHAREHOLDERS

The ultimate decision-making body in the Company is the General Meeting of Shareholders. It resolves issues as defined for the General Meeting in the Finnish Limited Liability Companies Act and the Company's Articles of Association. These include approving the financial statements, deciding on the distribution of dividends, discharging the Company's Board of Directors and CEO from the liability for the financial year, appointing the Company's Board of Directors and auditors and deciding on their remuneration.

A General Meeting of Finnlines Plc is held at least once a year. The Annual General Meeting (AGM) must be held no later than the end of June. An invitation to attend the AGM and the agenda are published in a national newspaper chosen by the Board, as well as on the Company's website, no earlier than

three months before the Shareholders' Meeting and no later than 21 days before the Shareholders' Meeting. Shareholders have, according to the law, the right to put items falling within the competence of the General Meeting on the agenda of the General Meeting, if the shareholder so notifies the Board of Directors in writing well in advance of the General Meeting so that the item can be added to the notice of the General Meeting. The demand is deemed to have arrived in sufficient time, if the Board has been notified of the demand four weeks before the delivery of the notice of the General Meeting at the latest.

The Annual General Meeting of Finnlines Plc approved the Financial Statements and discharged the members of the Board of Directors and the Company's President & CEO and the Company's officers from liability for the financial year 2010.

The Meeting approved the Board of Directors' proposal not to pay any dividend.

The Annual General Meeting decided that the Board of Directors shall have six members. The following were re-elected to the Board: Mr Emanuele Grimaldi, Mr Diego Pacella, Mr Gianluca Grimaldi, Mr Antti Pankakoski, Mr Olav K. Rakkenes and Mr Jon-Aksel Torgersen. The Board elected Mr Emanuele Grimaldi Executive Chairman and Mr Diego Pacella Vice-Chairman.

The firm of authorised public accountants Deloitte & Touche was appointed as the Company's auditors for 2011.

The Annual General Meeting authorised the Board of Directors to decide on the issuance of new shares in one or several tranches so that the total number of shares issued based on the authorization is 20,000,000 at maximum. The authorisation is valid until the next Annual General Meeting. The authorisation replaces the Annual General Meeting's authorisation to decide on a share issue of 14 April 2010.

Internal audit

The Group's internal audit is handled by the Company's Internal Audit unit, which reports to the Chairman and the CEO.

The purpose of the Internal Audit is to analyse the Company's operations and processes and the effectiveness and quality of its supervision mechanisms. The unit assists Finnlines to accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of the internal control and governance processes. The Internal Audit unit carries out its task by determining whether the Company's risk management, internal control and governance processes, as designed and represented by the management, are adequate and functioning in a manner to ensure that:

- Risks are appropriately identified and managed
- Interaction with the various governance groups occurs as needed
- Significant financial, managerial and operating information is accurate, reliable and timely
- Employees' actions are in compliance with policies, standards, procedures and applicable laws and regulations
- Resources are acquired economically, used efficiently and adequately protected
- Programs and plans are properly implemented and objectives are achieved
- Quality and continuous improvement are fostered in the Company's internal control processes
- Significant legislative or regulatory issues impacting the Company's internal controls are recognised and addressed appropriately.

The head of the Internal Audit unit prepares an annual plan using an appropriate risk-based methodology and taking into consideration potential risks or control concerns identified by the management. The scope of the audits within a fiscal year is planned so that it is representative and the focus is set on the business areas with the biggest risk potentials. The plan is approved by the CEO. The internal auditor also carries out special tasks assigned by the Chairman, the CEO or the Board of Directors.

Internal auditor carries out the internal audits independently from operational units. In his auditing work the auditor complies with the corporate governance, ethical principles, policies and other guidelines of the Company as well as generally accepted standards for the professional practice of Internal Auditing.

The audit reports are sent to the CEO, the CFO and also to the Chairman. The CEO and the CFO have at least once a year a closed session with the head of Internal Audit unit about the results of the conducted audits and the plans for the next period. Relevant issues are also brought to the attention of the Board of Directors.

RISK MANAGEMENT

Internal control in Finnlines is designed to support the Company in achieving its targets. The risks related to the achievement of the targets need to be identified and evaluated in order to be able to manage them. Thus, identification and assessment of risks is a prerequisite for internal control in Finnlines.

Internal control mechanisms and procedures provide management assurance that the risk management actions are carried out as planned. Conscious and carefully evaluated risks are taken in selecting strategies, e.g. in expanding business operations, in enhancing market position and in creating new business.

Financial, operational and damage/loss risks are avoided or reduced. The continuity of operations is ensured by safeguarding critical functions and essential resources. Crisis management, continuity and disaster recovery plans are prepared. The costs and resources involved in risk management are in proportion to the obtainable benefits.

The Board of Directors of Finnlines is responsible for defining the Group's overall level of risk tolerance and for ensuring that Finnlines has adequate tools and resources for managing risks. The President and CEO, with the assistance of the Extended Board of Management, is responsible for organising and ensuring risk management in all Finnlines' operations.

Responsibilities for the Group's working capital, investments, financing, finances, human resources, communications, information management and procurement are centralised to the head office of the Company. The Group's payment transactions, external and internal accounting are managed centrally by the Financial Department, which reports to the CFO. The Group's foreign exchange and interest exposure is reviewed by the Board of Directors in each budgeting period. External long-term loan arrangements are submitted to the Board of Directors for approval.

The Corporate Legal Affairs and Insurance unit is responsible for risks associated with the Company's non-current assets and any interruptions in operations, as well as for the management and coordination of the Group's insurance policies. The majority of the Group's non-current assets consist of its fleet. The fleet is always insured to its full value. Accidents and engine damage

can result in interruptions in operations, which are covered by loss-of-earnings policies.

The financial position and creditworthiness of the Group's customers are monitored continuously in order to minimise the risk of customer credit losses.

Each business unit has a responsible controller who reports to the head of the relevant business unit and to the CFO. The Heads of Finnlines' business units are responsible for the profit and working capital of their units. They set the operational targets for their units and ensure that resources are used efficiently and that operations are evaluated and improved.

Finnlines' most important strategic, operative and financial risks are described in the Financial Statements 2011, see Note 32. Financial Risk Management.

INTERNAL CONTROL OVER THE FINANCIAL REPORTING PROCESS

Monitoring is a process that assesses the quality of Finnlines' system of internal control and its performance over time. Monitoring is performed both on an ongoing basis, and through separate evaluations including internal, external and quality audits. The business unit is responsible for ensuring that relevant laws and regulations are complied with in their respective responsibility areas.

The Internal Audit function assists the CEO and the Board of Directors in assessing and assuring the adequacy and effectiveness of internal controls and risk management by performing regular audits in the Group's legal entities and support functions according to its annual plan. Finnlines' external auditor and other assurance providers such as quality auditors conduct evaluations of the Company's internal controls.

The Company's financial performance is reviewed at each Board meeting. The Board reviews all interim and annual financial reports before they are released. The effectiveness of the process for assessing risks and the execution of control activities are monitored continuously at various levels. This involves reviews of results in comparison with budgets and plans. Responsibility for maintaining an effective control environment and operating the system for risk management and internal control of financial reporting is delegated to the CEO. The internal control in the Company is based on the Group's structure, whereby the Group's operations are organised into two segments and various

business areas and support functions. Group functions issue corporate guidelines that stipulate responsibilities and authority, and constitute the control environment for specific areas, such as finance, accounting, and investments, purchasing and sales.

The Company has a compliance program. Standard requirements have been defined for internal control over financial reporting. The management expects all employees to maintain high moral and ethical standards and those expectations are communicated to the employees through internal channels.

The Group Finance & Control unit monitors that the financial reporting processes and controls are being followed. It also monitors the correctness of external and internal financial reporting. The external auditor verifies the correctness of external annual financial reports.

The Board monitors the statutory audit of the financial statements and consolidated financial statements, evaluates the independence of the statutory auditor or audit firm, particularly the provision of related services to the Company and prepares the proposal for resolution on the election of the auditor.

The Board reviews annually the description of the main features of the internal control and risk management systems in relation to the financial reporting process, which is included in this Corporate Governance Statement.
